# BECOME A MENTOR IN 2011

The Career Mentoring Program in the Faculty of Business and Economics has experienced considerable growth since it commenced eight years ago. The program has successfully matched hundreds of students with business professionals from a diverse range of organisations and professional backgrounds. Our mentors share their valuable industry knowledge and experience with both undergraduate and graduate students studying in similar fields or interest areas. Mentors assist their mentees in identifying career goals and developing plans.

Explore this opportunity to give back to the community, develop and utilise your coaching and leadership skills, and increase your profile and networks.
